RE: Double Registration of Sea Wave Energy Converter

Dear Sirs,

I own a number of international patents for sea wave electricity. I have a U.S. pending patent numbered 09/431,559, PCT/IL98/00118.

I have been referred to a patent numbered 6,109,029 – WAVE ENERGY CONVERTER, of Alan Keith Vowels, filed on January 27, 1998. You approved this patent on August 28, 2000.

Both an initial look and a profound check show that the idea in that patent was copied directly from my patent. Therefore I would like to request that you check this matter and put things right.

Sincerely Yours,

Shmuel Ovadia
Managing Director
